

Activity Scaffolding & Extension Planner

A multi-page planning framework for individualizing any activity — before, during, and after.

1 · Learning Experience

Activity name, age group, group size, setting, date

2 · Curriculum Connection

Which developmental domains or curriculum expectations does this experience support?

3 · Materials & Setup

Everything needed, and how the environment is prepared

4 · Child Observations

What did you see and hear? Record objectively — actions, words, choices, interactions.

5 · Differentiation

How was the activity adjusted for individual children? (pace, materials, grouping, communication)

6 · Scaffolding Strategies Used

Strategy	How it was used / notes
Modeling	
Visual supports	
Verbal prompting	
Peer support	
Open-ended questions	
Breaking down the task	
Repetition & routine	

7 · Questions I Asked

Open-ended questions that extended thinking ("What would happen if...", "How did you...")

8 · Assessment & Reflection

What does the observation tell you about each child's development? What worked, what didn't?

9 · Extension Ideas

Ways to deepen or vary the experience next time (new materials, settings, challenges)

10 · Follow-Up & Next Steps

What comes next for the group? For individual children? What will you plan, change, or repeat?
